WaterLink® SpinTouch®

Every now and then a technology emerges that changes people's lives. For people who test water, that time is now.

The innovative ***WaterLink® Spin Touch®*** photometer does all your pool and spa water testing for you wherever you need it—in the field or in the store! Each sealed reagent SpinDisk® contains the precise amount of reagent needed to run a complete series of tests in just 30 or 60 seconds. Simply fill a reagent SpinDisk® with a water sample, place it in the meter, tap "start", and all your vital tests are done automatically.

In the field, the results are displayed on the touchscreen, then can be transferred to WaterLink Solutions™ PRO software to be instantly analyzed, providing step-by-step treatment instructions on your mobile device and test history storage in the cloud.

In the store, the Spin Touch® is run directly from your computer using WaterLink Solutions™ PRO. The results are displayed right on your monitor with all records being kept in the cloud or on your hard drive.

This is the most advanced system for precise use of wet chemistry methods ever produced! Now pool and spa analysts can achieve precision without time consuming test and clean-up procedures. This ground-breaking analysis system is so simple anyone can use it! No vials to fill, no prep time, no guessing!

NSF CERTIFICATION The NSF/ANSI/CAN 50 certification mark on a water quality testing device (WQTD) used in recreational waters, such as pools and spas, means that the product was reviewed and certified by NSF International to meet applicable American National Standards for product design and performance. NSF tests and re-tests products to confirm that they comply with all requirements of certification for performance, accuracy and operating range. Certification levels of L1, L2, and L3 are possible with L1 being the highest rating. Go to **www.nsf.org** for more information.

For the most recent WaterLink Connect 2 update and the most recent Spin Touch firmware update, customers who intend to use a WaterLink Spin Touch Meter for NSF certification compliance purposes should:

1. Visit softwarecenter.lamotte.com and download the WaterLink Connect 2 application for Windows.
2. Plug the Spin Touch into the computer using the included USB cable.
3. Open the WaterLink Connect 2 desktop application and wait for the update to complete.

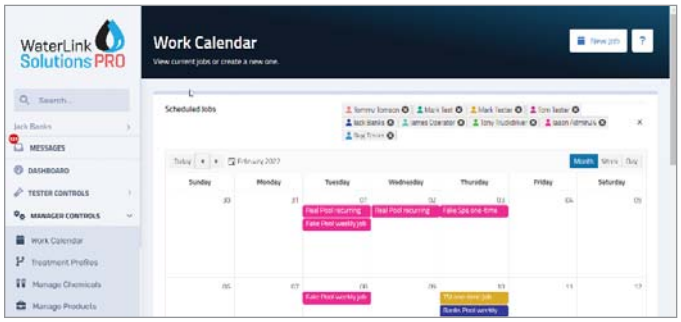
Flexible Data

Customer records are broken down into Sites, Properties, and Contacts.

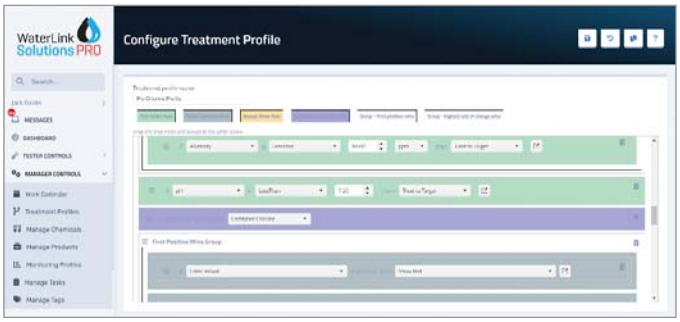
- **Sites** are pools or spas, or any body of water you test.
- **Properties** are physical locations where the Site exists.
- **Contacts** are people to notify when the water test is complete

Connect these entities to build relationships between them. Manage as much or as little of the data as meets your needs.



Work Calendar

Schedule recurring or single jobs for your customers, complete with customizable tasks, water testing, and a professional e-Receipt of the completed work.



Customizable Recommendations

Utilize the most powerful and customizable treatment engine in the industry. Set treatment conditions using the visually and logically complete rules editor. This level of customization can support any treatment plan for any chemistry or product line.

Water Analysis To-Go

The WaterLink Solutions™ PRO app for Android® and iOS® devices lets you test water anywhere, anytime.

Quick Work

Use the Work Wizard to complete scheduled jobs or just test on the fly. Receive full, step-by-step treatment recommendations for any customer in your database. Complete custom tasks and record actual dosage amounts for chemical treatments. Finish up by emailing a professional e-Receipt detailing the completed work to your customer. Everything is automatically saved in the cloud.

Free to Use

Visit SoftwareCenter.LaMotte.com to sign up for a free account today. Optional monthly paid subscription tiers grant additional user licenses so multiple users can simultaneously log in.

WaterLink Solutions™ HOME

WaterLink Solutions™ Home App

WaterLink Solutions™ Home app offers pool and spa owners the ability to connect with their local retailer who is using WaterLink Solutions™ PRO water analysis program. This allows homeowners to stay in touch with their local pool and spa professional. When connected to a Pro account, Home users can utilize the treatment profiles and chemicals from their local pool and spa professional, receiving treatment recommendations based on chemicals sold at their local retailer. The Home app is able to receive test results from the ColorQ® 2x photometer through Bluetooth® along with photo-scan our Insta-TEST® strips. Pro users can monitor Home user testing in real time.
